Subject: Former George AFB - Draft Tech Memo - 2018 Basewide Groundwater Sampling
Attachments: GAFB_Draft TM_2018 Basewide GW Sampling.pdf

BCT Members

Please find attached the Draft 2018 Basewide Groundwater Sampling Technical Memorandum for your review. Note that this Tech Memo now discusses both Spring and Fall events proposed for the year. Spring field work is currently scheduled to commence on April 23rd, 2018, and is estimated to last approximately 3-4 weeks. This document has also been posted on the George AFB Project Portal:

[AFCEE WERC-09 Former George Air Force Base > Shaw Records Regulators > Project Records > Shared Documents > Basewide > Groundwater Sampling > 2018.](#)

If you have any comments specific to the proposed Spring Event, we request that they be submitted to us no later than April 17th. As always, please feel free to contact me if you have any questions.

Regards

Chris
